Re: LightSquared Subsidiary, LLC
Ex Parte Communication. IB Docket No. 11-109
IBSF File No. SAT-MOD-20101118-00239

As a small business owner, we have all felt the pinch in this economy. We have purchased GPS equipment at a great expense to keep up with the growing technology of GPS and GIS applications. We, on a daily basis rely on this technology on every project we work on and that not only the surveying industry will be harmed, but so will the hundreds of thousands of people who use the data surveyors produce. Therefore I oppose you grant Light Squared to go forward with there plan unless sufficient measures are taken to ensure it will not interfere with high-precision GPS.

Sincerrely,

Mark E. Purdy P.S.
